🐙 Rajeevgithu

Education

University of Mumbai (Theem College of Engineering, Palghar)

Bachelor of Engineering in **Computer Science & Engineering (AI AND ML)** (Minor in Data Science)

CGPI : 8/10

Relevant Coursework: Frontend developer, Data Structures and Algorithms, Software Engineering and Project Management

Technical Skills

Programming Languages	JavaScript, HTML/CSS,C, Python
Databases	MySQL, MongoDB
Frameworks & Libraries	Django, Pandas, Matplotlib
Tools & Platforms	Advance Excel, VS Code, AWS, Git, GitHub,
Soft Skills	Research, Problem-solving, Teamwork, Attention to detail, Curiosity, Delivering Results

Work Experience

Python Intern – Infosys Springboard (Remote)

Feb 2025 – March 2025

- Developed a **Django** web application to streamline budget tracking with data visualization and real-time analytics
- Used **Python**, Django, pandas, and **PostgreSQL** for data analysis, visualization, and secure storage.
- Enhanced user experience by automating expense categorization and providing detailed financial insights.

Projects

1. REACT Project – Deepfake-Frontend

[GitHub Link](#) 

- Developed a deepfake detection frontend leveraging React, Vite, Node.js, HTML, CSS, and JavaScript.
- Implemented an intuitive user interface for analyzing video content and identifying deepfake media.
- Enhanced functionality by integrating real-time detection algorithms and user-friendly visualizations.

2. Budget Tracker Web Application

- Developed a comprehensive budget tracker web application using **Django**, Python, SQL, HTML, CSS, Bootstrap, Chart.js and JavaScript.
- Incorporated dynamic data visualization with Chart.js to provide insightful financial summaries.
- Implemented robust backend functionalities with Django and SQL for secure data storage and processing.

3. E-Commerce Website

- Built a scalable e-commerce platform using the MERN stack with MongoDB for secure data management.
- Designed a responsive UI with React.js and Tailwind CSS for a modern shopping experience.
- Implemented real-time features for smooth transactions and inventory updates using Node.js and Express.js.

Certifications

AWS Academy Graduate – AWS Academy Data Engineering
