Education

B.E in Computer Science and Engineering (AI & ML, with Honours in Data Science) *Aug 2021 – May 2025*
Theem College of Engineering, University of Mumbai *CGPA: 8.02 / 10*

Higher Secondary Education (HSC) *June 2019 – Nov 2021*
Motilal Kanji Jr. College, Chinchani *68.17%*

Experience

Full Stack Developer Intern – Infosys Springboard (Remote) *Jan 2025 – Mar 2025*

- Developed a full-stack **budget tracking application** using **Flutter (Dart)** for the frontend and **Python (Django)** for the backend, with a **PostgreSQL** database.
- Designed and deployed **RESTful APIs** in Django, integrated with Flutter via JSON serialization.
- Implemented automated workflows using **CI/CD pipelines** and GitHub Actions.
- Collaborated in an **Agile** environment to optimize backend performance and ensure timely deployment.

Projects

Foddie — Flutter Food Ordering App — *Flutter, Firebase, Cloudinary, Stripe, REST API*  

- Developed a **cross-platform food ordering app** for Android, iOS, and Web using Flutter and Firebase.
- Implemented **Firestore Authentication**, Firestore database, and **Cloud Functions** for serverless operations.
- Integrated **Stripe API** for secure and seamless in-app payments and checkout processing.
- Built core features including **cart management**, **wallet integration**, **checkout system**, and order history.
- Designed an intuitive **admin dashboard** for managing menus, food items, and orders.

Eventifyy — Flutter Event Booking App — *Flutter, Firebase, SharedPreferences, Stripe*  

- Built a **cross-platform event booking app** with real-time Firestore database integration.
- Implemented secure authentication using **Firestore Email/Password**.
- Integrated **Stripe payment gateway** for ticket purchase and event booking transactions.
- Developed an **admin panel** for managing events, bookings, and users.
- Added **local caching** via SharedPreferences to enhance performance and offline usability.

Text Tech Enterprises — E-Commerce Platform — *React.js, Node.js, Express.js, MongoDB*  

- Developed a **full-stack e-commerce platform** with authentication, product management, and order workflows.
- Built and deployed using **MERN stack** and environment-based CI/CD configurations.
- Integrated **JWT authentication**, microservices architecture, and admin dashboards for analytics.

Technical Skills

Programming Languages:	Dart, Python, JavaScript, C, C++
Frameworks & Tools:	Flutter, React.js, Node.js, Django, Firebase, Cloud Firestore
Backend & Cloud:	REST APIs, Firebase Cloud Functions, AWS (Basics), Cloud Deployment
Databases:	PostgreSQL, Firebase Firestore, SQL, MongoDB
Methodologies:	Agile Development, CI/CD, Version Control (Git), Unit Testing, API Integration
Tools & Platforms:	GitHub, Postman, VS Code, Android Studio, Figma
Professional Skills:	Problem-Solving, Communication, Teamwork, Adaptability

Certifications

- AWS Academy Graduate – Data Engineering** ([View Credential](#))
- Infosys SpringBoard – Batch 5.0 (B4)**

Academic Highlights

- Awarded **Honours in Data Science** for advanced analytics, machine learning, and data engineering coursework.
- Completed major academic projects in **Deepfake Detection** and **Cross-Platform App Development**.
